Light

Projekt zaczyna się od materiału. Od kamienia, który pamięta czas. Od drewna z własnym rysunkiem. Od szkła, które zatrzymuje refleks światła. Od metalu, który z wiekiem nabiera szlachetności. Kolekcja Maxlight 2026 powstała z przekonania, że światło jest częścią architektury - nie dodatkiem. To opowieść o materiałach, proporcjach i detalach, które pozostają aktualne znacznie dłużej niż sezon.

shapeslife

Every design begins with a material. With stone that carries the memory of time. With wood shaped by its own unique grain. With glass that captures and diffuses light. With metal that grows more refined with age. The Maxlight 2026 Collection was created from the belief that light is an integral part of architecture - not an accessory. It is a story of materials, proportions, and thoughtful details that remain timeless, far beyond the passing of a season.
